Test Case Title/Description	Test Steps
Verify user should redirect to login by using name	1.Go to the application Url 2.Click on sign up button 3.Click on name textbox
Verify user should redirect to login by using phone number	1.Go to the application Url 2.Click on sign up button 3.Click on phone number textbox
Verify user should redirect to login by using Otp	1.Go to the application Url 2.Click on sign up button 3.Click on phone number textbox 4.Click on login button 5.Enter otp
Verify user should redirect to view availibility of homestay	1.Go to the application Url 2.Click on login button 3.Fill the required credentials 4.Click on login button 5.Click on availability of homestay
Verify user should get notification using SMS about the confirmation of booking	1.Go to the application Url 2.Click on login button 3.Fill the required credentials 4.Click on login button 5.Click on availability of homestay 6.Book the homestay 7.Click on confirm button
Invalid phone number is entered	1.Go to the application Url 2.Click on login button 3.Click on phone number textbox
Invalid Otp is entered	1.Go to the application Url 2.Click on login button 3.Click on phone number textbox 4.Click on login button 5.Enter Otp
Error for timeout session of Otp	1.Go to the application Url 2.Click on login button 3.Click on phone number textbox 4.Click on login button 5.Enter Otp

Error for reusuability of Otp	1.Go to the application Url 2.Click on login button 3.Click on phone number textbox 4.Click on login button 5.Enter Otp
Verify user should redirect to view list of homestay	1.Go to the application Url 2.Click on login button 3.Click on phone number textbox 4.Click on login button 5.Click on view button
Verify user should redirect to cancle the booking of homestay	1.Go to the application Url 2.Click on login button 3.Click on phone number textbox 4.Click on login button 5.Click on cancle button
Verify user should redirect to modify the booking of homestay	1.Go to the application Url 2.Click on login button 3.Click on phone number textbox 4.Click on login button 5.Click on modify button

Test Data	Expected Result
1.Yogita	User should redirect to name textbox
1.910320115	User should redirect to phone number textbox
1.9103201145 2.1234	User should redirect to enter Otp in textbox
NA	User should redirect to view availability of homestay
1.1234	User shoud get notification to confirm the booking
1.910320114	User should entered invalid phone number
1.123	User should entered invalid otp
1.12345	User should entered timeout session Otp

1.1234	User should entered already used Otp
NA	User should redirect to page of view list of homestay
NA	User should redirect to of cancle the booking of homestay
NA	should redirect to modify the booking of homestay

Actual Result	Status
User redirect to name textbox	Pass
User redirect to phone number textbox	Pass
User redirect to enter Otp in textbox	Pass
User redirect to view availability of homestay	Pass
User get notification to confirm the booking	Pass
User entered invalid phone number	Pass
Entered invalid Otp	Pass
User entered timeout session Otp	Pass

User entered already used Otp	Pass
User redirect to page of view list of homestay	Pass
User redirect to of cancle the booking of homestay	Pass
User redirect to modify the booking of homestay	Pass
