Summary

Data Scientist and Human Resource Manager with 2 years of experience in leveraging data analysis to drive business growth and improve operational efficiency. Proven expertise in Artificial Intelligence, Python, and data visualization tools like Microsoft Power BI. Certified in Build a Face Recognition Application using Python and Analyzing and Visualizing Data with Microsoft Power BI. Skilled in HR Management, Recruiter, and Web Content Management, with a strong foundation in Microsoft Office and Python programming. I seek opportunities to apply analytical skills in a dynamic environment and drive business success.
